

System Requirements

Windows®

- Intel® Pentium 4 or higher
- Microsoft® Windows XP with Service Pack 2 or Windows Vista™
- 512 MB RAM
- Hard Disk: 30 MB of available hard-disk space
- Adobe Flash Player 9 required
- built-in or external usb webcam

Installing the screensaver

1. Double-click on the file „Install Santec Screenguard.exe“ and install the screensaver.
2. On an empty area of your desktop click with your right mouse button and choose properties from the pop up menu. Select the „Screen Saver“ tab.
3. Select from the drop down menu „Screen saver“ the „Santec Screensaver“.
4. If you start the screensaver for the first time you have to choose a key to unlock the screensaver later.
5. The screen saver is requesting access to your webcam. You need to allow and save the request in the „Adobe Flash Player Settings“ panel (picture). To select „save“ you need to have the administration rights of your computer.

6. The pictures of evidence are saved in the „SantecScreenshots“ folder on your desktop.

Hints and Problems

- To change your key for unlocking the screensaver you need to delete the file „pass“ in the „SantecScreenshots“ folder on your desktop.
- Windows Vista may show you a problem while installing the screensaver. Simply ignore it, the screensaver will run anyway.
