

**SANTEC Newsletter**

Ahrensburg, 4 May 2011

Dear partner and customer,

In this newsletter edition, we would like to present the new SanStore MMX recorder series. Moreover, we would like to draw your attention to a new SANTEC advertising spot.

**New SanStore MMX digital recorder series**

The new SanStore MMX recorders come with the modern **H.264 codec** which saves storage capacity and enables a very long recording duration. The new, fast, internal processor and improved software functions provide convenient, smooth and easy handling. Moreover, the network performance (LAN/WAN) has considerably been enhanced and new functions such as **dual streaming** have been integrated. What's also new is that users may access the recorders by using **Apps** via the iPhone or an Android Smartphone. A new and modern web interface is available for the recorder management. A newly developed SanStore-EMS software administers up to 300 recorders.

The recorders of the SanStore MMX series are available with 4-channels, 8-channels and 16-channels.

Read more on SanStore recorders [here](#).

**New SANTEC advertising spot**

The advertising agency Serviceplan ([www.serviceplan.com](http://www.serviceplan.com)) has produced a new SANTEC advertising spot called „Prison“. The setting of this spot is a rich family's villa where a burglary is committed. The thieves, however, end up in prison because "There is no escape" with SANTEC security cameras.

View the spot [here](#).

We hope you will find the information in this newsletter useful.

Best regards,

Your SANTEC Team
